SKILLS

- **Frontend:** HTML, CSS, JavaScript, TypeScript, Vue.js, React.js, Tailwind CSS
- **Backend:** PHP, Laravel, Node.js, Django
- **Database**: MySQL, Firebase Firestore, SQLite, PostgreSQL, MariaDB
- **Dev Tools & Tech**: Git, GitHub, Inertia.js, Capacitor.js, Electron.js Vite, Figma, Canva, Adobe Photoshop, MS Offices, Vercel, Railway
- **AI-Native Development**: Prompt Engineering, AI-Assisted Coding, AI-Assisted Prototyping, AI-Assisted Debugging, AI-Assisted Documentation, AI-assisted Research, Iterative Development | AI Tools: ChatGPT/Codex, Claude, Copilot, Gemini

EXPERIENCE

Full-Stack Web Developer Intern
PRAXXYS Solutions, Inc. | January 19 2026 – April 28, 2026

- Contributed to the administration modules of live business applications including Balesin Key Admin and DOXO Ingredients (Injoy).
- Developed a Warehouse Management System using Laravel, Inertia.js, Vue.js, and MySQL as part of technical training and evaluation.
- Successfully completed the internship and received balance performance feedback.
- Conducted UX Research and developed user journey docs, product requirement docs, master docs, and Figma-based mobile and web UI/UX designs for an E-commerce platform.
- Utilized Git workflows, ticket-based development practices, and AI-assisted tools to improve productivity and code quality.

PROJECTS

Tahanan ng Pagmamahal Orphanage Management System, Capstone Project | Full Stack Developer
- Developed a multi-module system handling orphans, staff, volunteers, donors, donations, expenses, and inventory.
- Built both web and mobile applications using HTML, CSS, JavaScript, Tailwind, Node.js, Firebase Firestore, and Capacitor.js.
- Implemented real-time chat functionality for communication across staff, volunteers, and administrators.
- Designed dashboards with graphical data visualizations for donation trends, expenses, and inventory levels.
- Developed secure authentication, role-based access control, and structured database workflows ensuring data accuracy and safety.

Negus Grounds Coffee Shop, E-commerce | Full Stack Developer
- Developed a fully functional e-commerce website from scratch using pure HTML, CSS, JavaScript, PHP.
- Implemented secure user authentication with OTP email verification, login attempt blocking, and password recovery.
- Built a dynamic AJAX-powered cart, checkout flow, and COD/online payment integration.
- Created an admin dashboard with inventory management, user management, POS, sales queue, and PDF reporting (TCPDF).
- Designed and maintained the MySQL database ensuring data integrity across products, orders, and users.

Silver Thatch Pensions Website, Redesign UI/UX | Front End Developer
- Redesigned the website with a modern UI/UX focused on clean layouts, accessibility, and improved user flow.

- Developed the front-end using React.js and Vite, creating fast, modular components and optimized performance.
- Added interactive elements and smooth animations to enhance engagement and deliver a polished user experience.

EDUCATION

Bulacan State University – Bustos Campus Poblacion, Bustos, Bulacan, Philippines
Bachelor of Science in Information Technology with Specialization in Web and Mobile Application Development
August 2022 – June 2026

CERTIFICATIONS

- **Certificate of Completion 04/28/2026**
  Full Stack Web Developer Internship at PRAXXYS Solutions, Inc.
- **Certificate of Participation 10/27/2025**
  BulSU Psycho-Emotional Preparedness Survey for Internship
- **Certificate of Participation 03/13/2025**
  BulSU ASICS Seminar - ReimAgine Tomorrow: Decoding the Future of Technology Through AI
- **Certificate of Completion 05/04/2024**
  CISCO Introduction to Packet Tracer
